### Efficiency at new heights with evolved feeding

- Reliable.
- Quality images.
- Paper handling.

#### State-of-art feeding technology - streamline workflow

In the "Manual Feed Mode", the fi-8150U scans copy forms and passports or booklets up to thicknesses of 7 mm with the carrier sheet. Precise multi-feed detection on a wide range of documents like plastic cards and documents with attachments, enable continual scanning with the same profiles. In addition, the "Automatic Separation Control" optimizes paper feed to match the number of sheets loaded, preventing interruptions. "Image Monitoring" also performs checks, real-time, for image skew, and provides enhanced paper protection.

#### Optimized high-quality images

The fi-8150U comes with "PFU Clear Image Capture", a unique and dedicated image correction technology that generates unparalleled, high-definition images while keeping power consumption to the minimum. Quality images with no missing edges can be ensured with the scanner's Skew Reducer mechanism.

#### Better usability and flexibility for any environment

Equipped with USB 3.2 connectivity, the fi-8150U supported the use with imprinter options opens up the capability for total document management and assists in document archiving requirements that are prevalent in many industries.

#### Efficiency optimized, simplicity achieved, with expanded software functionalities

The scanner driver, PaperStream IP, comes with a simplified, user-friendly interface that provides icon visibility for easy setting configurations. Users can consistently achieve scanned outputs of correct orientations with the "Automatic Rotation" function, and store frequently scanned documents in specific formats using the "pattern matching" method. Efficiency with simplification brings users, a reduction to operation time as well - on frequent and routine operations like deleting blank pages, or correcting page orientations, just by following the optimal settings suggested by the "Settings Assistant" on the integrated PaperStream Capture software. Documents can be retrieved more efficiently with the "PDF keyword setting" function, instead of being constrained to file names alone.

\*1 Scanning speeds may vary due to the system environment. For details, please visit our local website. \*2 Indicated speeds are from using JPEG compression.

\*3 Indicated speeds are from using TIFF CCITT Group 4 compression. \*4 Selectable maximum resolution may vary depending on the length of the scanned document. \*5 Limitations may apply to the size of documents that can be scanned, depending on system environment, when scanning at high resolution (over 600 dpi). \*6 Maximum document width possible for scanning is 240 mm (9.5 inch). \*7 For use with PaperStream NX Manager, the maximum resolution supported is 400 dpi, with maximum lengths ranging with resolution. Simplex: 1,828.8 mm (72 in.) [below 300 dpi], 355.6 mm (14 in.) [below 400 dpi]. Duplex: 863.6 mm (34 in.) [below 300 dpi], 355.6 mm (14 in.) [below 400 dpi]. \*8 Thicknesses of up to 128 to 209 g/m<sup>2</sup> (34 to 56 lb) can be scanned for A8 (52 x 74 mm / 2.1 x 2.9 inch) sizes. \*9 Booklet scanning requires use of Booklet Carrier Sheets. Indicated thickness is inclusive of Booklet Carrier Sheet thickness. \*10 Continuous feeding is supported when scanning up to 10 unembossed cards with thicknesses of 0.76 mm or less. \*11 Maximum capacity depends on paper weight and may vary. \*12 Capable of setting additional documents while scanning. \*13 Numbers are calculated using scanning speeds and typical hours of scanner use, and are not meant to guarantee daily volume or unit durability. \*14 Excludes the ADF paper chute and stacker. \*15 fi Series scanners do not run with Windows® 11 and 10 ARM-based PCs. \*16 Supports only USB connections. \*17 Functions equivalent to those offered by PaperStream IP may not be available with the Image Scanner Driver for macOS/Linux or WIA Driver.

\*18 Refer to the fi Series Support Site for driver/software downloads and full lineup of all supported operating system versions.
